*International  
Chemical Regulatory  
and Law Review*

## International Chemical Regulatory and Law Review

Chemicals have a significant impact on our way of life and the global economy. Accordingly, safe chemical management is essential in avoiding risks to human health and international trade. To provide a forum which will enable practitioners, regulators, policy makers and academics to discuss the most pressing issues in this field - in Europe and beyond - we invite you to submit your articles, country reports, and case notes on the topics covered by ICRL, including:

- chemical law and regulation (regional, national, international)
- Commission decisions (ECHA opinions)
- European and global jurisprudence
- regulation on crop protection
- biocide law
- transport law for hazardous materials
- patents/trademarks
- licences
- chemical registration

All articles will be subject to peer-review before acceptance for publication and are required to conform to the author guidelines available at: [www.lexxion.eu/icrl-authors](http://www.lexxion.eu/icrl-authors)

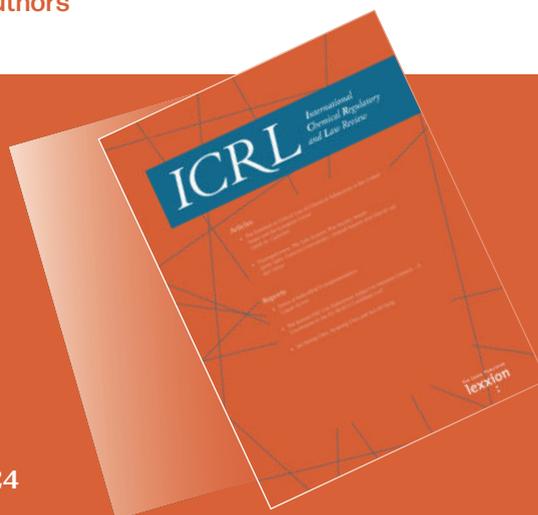

### Editorial deadlines for the next issues:

We are accepting submissions  
on a rolling basis

### Send submissions to:

**Olive Casey**
