

CALL FOR PAPERS

Chemicals have a significant impact on our way of life and the global economy. Accordingly, safe chemical management is essential in avoiding risks to human health and international trade.

To provide a forum which will enable practitioners, regulators, policy makers and academics to discuss the most pressing issues in this field – in Europe and beyond – Lexxion has created the **International Chemical Regulatory and Law Review (ICRL)**.

Content

ICRL will report on the regulation, law & policy governing, inter alia:

- chemical law and regulation (regional, national, international),
- Commission decisions (ECHA opinions),
- European and global jurisprudence,
- regulation on crop protection,
- biocide law,
- transport law for hazardous materials,
- patents/trademarks,
- licences,
- chemical registration.

Types of Contributions

We invite you to submit your articles, country reports and case notes on the topics covered by ICRL. All submissions should be in British English and conform to the OSCOLA style of referencing.

All articles will be subject to double blind peer-review before acceptance for publication and are required to conform to the author guidelines available at: www.lexxion.eu/icrl/author-guidelines
