State-owned and commercial entities, operating in the utilities sector, such as gas, electric transport, and water firms, are obliged to apply the EU procurement policy when they purchase goods, services and works to pursue an activity in one of these sectors. The rules adopted with the Concessions Directive allow public policy makers to use public contracts and concessions more effectively, modernise the public sector and contribute to a more equitable and sustainable model of growth.

## Day 1

- Should you follow the Utilities Private Procurement Directive?
- Utilities Sectors in EU Member States
- The Publicity, Qualification and Award Stages in Utilities Procurement
- Award Procedures, Assessment, Award Criteria and Redress
- Affiliated Undertakings and Utilities
- Contract Modification – How to handle dramatic Price Changes in the Utilities Sector

## Day 2

- Definition of Concessions and Rules Applicable for its Procurement
- Public-Public Partnership for Utilities and Concessions Contracts
- Case Studies
- Problem-solving Session
